Featured Signature Member: Raymond Annino

In memory of Raymond Annino, RIWS would like to recognize him as our featured member.

Ray was a retired chemistry professor and researcher. A signature member and past President of the Rhode Island Watercolor Society, he had been painting as a pastime for most of his life. Since retiring, however, he had endeavored to strengthen his skills in the workshops of a number of prominent national artists/teachers. Ray painted primarily landscapes and seascapes. These were influenced by his 20 years living in Western NY, and long time residence in New England. His seascapes are a natural development of his experiences. He spent his younger years on Long Island, NY and much of that time on the Great South Bay as a clam digger to support his college education. Since then he mated on fishing boats and crewed on sailboats from Newport to Bermuda. Therefore, it was natural for him to paint nautical scenes of the sea and the ships that sail on it, especially those that depend only on the wind for power.

RIWS will be offering a Memorial Award in honor of Ray Annino during this year's 21st Annual National Show. Please contact the gallery if you'd like to make a donation toward this award.
